

Updation of Date of Leaving by Member

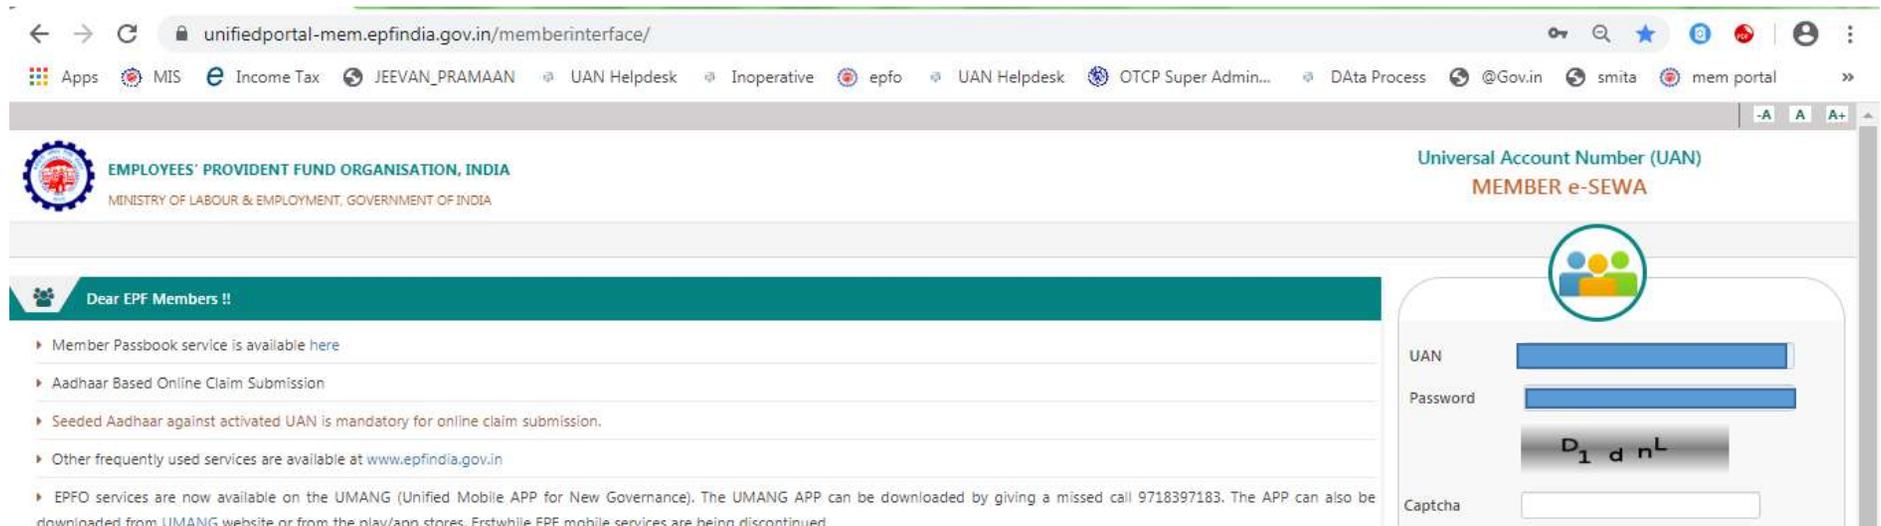

Sometimes employer does not update the date of leaving of the member. In such cases member is not able to file transfer claim or final settlement claim. To overcome this problem a provision has been provided in the login of the member so that member himself can update his date of leaving. Member can update his/her date of leaving only after two months of his/her last contribution received from the establishment. Date of exit should be with in last wage month for which contribution was received.

Following are the steps to use this functionality:

I have read the below points carefully.

Please note that the date of exit entered by you will be displayed to the Employer and in case you are still in employment then at the time of filing of the remittances for a period after the date of exit will be shown to the employer. (ECR Module)
 Date of exit can be the month for which the last contribution has been received. In case the employer has defaulted in payment and your date of exit is a later date then you have to approach the employer for updating of date.
 The date entered is non editable and in case you have entered a wrong date erroneously then it can be corrected only by the concerned field office of EPFO on the basis of a written request of the employer to the office. The date of exit however, cannot be edited after the settlement has been taken.
 In case you have entered the date of exit and withdrawn the amount, then the service length under the Scheme(s) will lapse and on any subsequent employment the service length will start afresh for any eligibility for pension and advances.

- Click on “Update” button in “Alert”.
