

# ESIC Payroll Data Shows over 12 lakh Additions In December

PTI New Delhi | Updated on February 25, 2020 Published on February 25, 2020

Around 12.67 lakh jobs were created in December 2019 against 14.59 lakh in the previous month, according to payroll data of the Employees' State Insurance Corporation (ESIC).

Gross enrolments of new subscribers with ESIC were 1.49 crore during the entire financial year 2018-19, the National Statistical Office (NSO) said in a report.

The report also showed that during the September 2017-December 2019 period, around 3.50 crore new subscribers joined the ESIC scheme.

The NSO's report is based on the payroll data of new subscribers of various social security schemes run by ESIC, Retirement Fund body EPFO and the Pension Fund Regulatory and Development Authority (PFRDA).

It has been releasing the payroll data or new subscribers data of these three bodies since April 2018, covering a period starting from September 2017.

The report showed that gross new enrolments with the ESIC during the September 2017-March 2018 period were 83.35 lakh.

A net of 10.08 lakh new enrolments with the Employees' Provident Fund Organization (EPFO) was recorded in December 2019, compared with 10.09 lakh in November last year.

In 2018-19, 61.12 lakh new subscribers on a net basis joined the social security schemes run by EPFO. Similarly, the net new enrolments were 15.52 lakh during September 2017-March 2018.

The latest data showed that during September 2017-December 2019, around 3.12 crore new subscribers joined the Employees' Provident Fund Scheme.

The report said that since the number of subscribers is from various sources, there are elements of overlap and the estimates are not additive.

The NSO said the report gives different perspectives on the levels of employment in the formal sector and does not measure employment at a holistic level.
