The ceiling of +/- 5% stipulated herein shall be reckoned for each age and term of the approved individual product and that no premium rate shall be beyond the ceiling stipulated subsequent to the modification effected. Any such change shall be limited only to ensure that the product is viable and self-sustainable. This is allowed as a onetime measure for seamless transition of existing products post implementation of the above referred guidelines/norms. The Authority reserves the right to direct the Insurer to withhold the proposed change and may direct the Insurer to file the modification as per the provisions specified at Chapter III.
